Professional Summary

I am a passionate web developer based in Dhaka, with a deep love for coding and problem-solving. I specialize in PHP, JavaScript, ReactJS, HTML5, CSS3, and WordPress development, combining creativity and functionality to create impactful web experiences. With years of hands-on experience, I have contributed to diverse projects, ranging from developing Joomla themes for ThemeForest to building dynamic, responsive websites. When I'm not coding, I'm brainstorming new ideas, exploring the evolving world of tech, or finding ways to make a difference in the digital space. Let's build something amazing together!
